FATHER DERMODY LEAVES GOLDFIELD

The numerous friends of Father James B. Dermody, pastor of the Catholic church in Goldfield, will be pained to hear that he has severed his relations with his old parish and will soon take charge of the church at Chico, Cal. The announcement has been made officially by Father Dermody, who, with his natural modesty, requested his congregation not to make his departure any more painful than necessary by offering any testimonials or holding any public reception, as such expression would only render more poignant the act of separation.

The beloved pastor of Goldfield has been in that camp from the earliest infancy, during which he saw it rise from a puling stage to the position of the greatest gold producer and the home of the biggest dividend payer in the world. When Father Dermody went to the new camp which was born of the Tonopah excitement, he lived in a rag shack and ministered to the creature and spiritual wants of the small population with as great earnestness and sincerity as any pastor of a larger and better housed congregation. The appointment to Chico is in the light of a promotion, as that town is one of the prettiest and best situated in California in the diocese of Sacramento.

HINDOO AGENT FOUND IN UTAH

(By Associated Press.) OGDEN, Utah, July 12.—Manga Ram, alias Munshee Ram, was arrested yesterday by Special Agent Leon Bone of the United States department of justice. Manga is charged with complicity in a conspiracy to set on foot and provide and prepare means in the United States for a military enterprise against Great Britain in India. The justice department agent declared the prisoner is one of the 139 persons wanted in San Francisco, charged under indictments returned there July 7, with plotting to procure secret treaties between China and Japan, and the German government in aid of the Hindu revolutionary plot. Amla Chana Sharma was to act as the intermediary between Germany and the conspirators at San Francisco.

Manga Ram's trail was followed to Utah, where it was lost in an interior town. By checking up the registration cards, the government agent was able to discover the fugitive on a farm near here, where he had hired out as a farm hand. He will be returned to San Francisco.

LOAD THEM ON FREIGHT TRAIN AND SEND THEM DOWN CANYON WITH ORDERS TO KEEP MOVING

(By Associated Press.) PHOENIX, Ariz., July 12.—The town of Bisbee suspended business today while the Citizens' Protective League, numbering 1500 armed men, rounded up a thousand industrial workers and searched them. They are now loading them on freight cars to be deported at 1 o'clock.

Those industrial workers who had not left town were rounded up in the baseball park, searched for weapons and cards, and sent aboard the cars. The train was composed of twelve box cars.

Assistant Attorney General Whitney is advised that two men were killed at Bisbee. One was Deputy Sheriff McKee and the other, one of the strikers. Details are lacking, but it is understood they killed each other, opening fire simultaneously. United States troops may be sent to Bisbee. Whitney telegraphed Sheriff Wheeler at Bisbee to wire him immediately "by what authority of law you are acting. State fully what violations, if any, took place prior to the decision to deport the strikers."

DRAFTING IS PUT OFF UNTIL NEXT WEEK

(By Associated Press.) WASHINGTON, July 12.—Postponement until next week of the drafting of numbers of men who will be called for examination for the national army seems probable, since it became evident that states are not completing organization of their district exemption boards as rapidly as war department officials had hoped. Only 21 states have reported their organization complete, of the others only a few districts are missing.

The drawing will not be made until the list for the country is complete. A so-called revised census estimate for the entire country compiled on the basis of the draft registration will be used for determining apportionments. Each city, county or state must furnish two-thirds of one per cent of its paper population, according to the new estimates, which were made for the purpose of equalizing the draft rather than to represent accurate population totals.

Thus New York city, with an estimated population of 6,504,185, must give 42,382 of the 687,000 young men to be called on the first draft. A city with 25,000 population would be required to give 166 men. These apportionments would be subject to

Governor Campbell sent similar messages.

(By Associated Press.) TUCSON, Ariz., July 12.—A telephone message from Douglas said 300 citizens of Douglas, heavily armed and with three machine guns, left for Bisbee to assist in the roundup of industrial workers. Railroad officials refused to indicate the destination of the train after it leaves Bisbee.

(By Associated Press.) GLOBE, Ariz., July 12.—Former Governor Hunt, the president's personal representative in the strike mediation, was appealed to from Bisbee to stop the train. The message, signed by Attorney W. C. Leary of Bisbee, said "Two thousand miners are being deported by corporation gunmen in the form of war in the district. Stop that train."

"The strike of copper miners in the Globe and Miami district apparently has settled down to a test of endurance. Federal Mediators Hunt and Judge McBride are turning their at-
